SACRED RESONANCE PRODUCTION

MUSIC OF THE SPHERES

23rd July: Music, Harmony and the Spheres

30th July: Real Sounds from Space and the Effects of Celestial Movements

6th August: "As Above, So Below"
(Macrocosmic and Microcosmic)

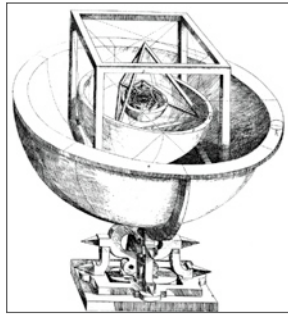

Presented over 3 weeks in a full dome visual-music spectacular in which you will learn everything from philosophical to mysteries of the spheres!

2009 is the International Year of Astronomy

23rd July:

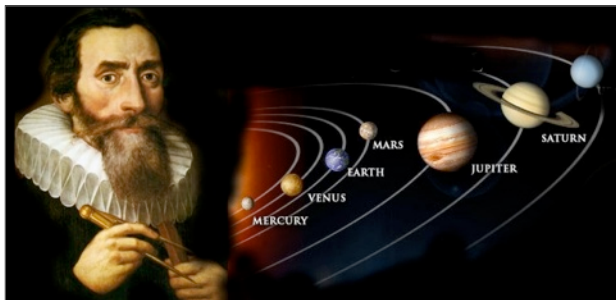

Music, Harmony and the Spheres

From Ancient Times to Modern times philosophers, astronomers free thinkers have discussed the harmony of the spheres and how the planets in our solar system may contain divine proportions of music scales which can be put into music.

Learn the secrets of the likes of Plato, Pythagorus and Kepler and with full dome visual experience you will understand the relationships.

With amazing solar system fly throughs and musical masterpieces experience the music of the spheres.

30th July:

Real Sounds from Space and the Effects of Celestial Movements

In modern times astronomy and technology have collected some of the most amazing real sounds from space. Wether it be the earth hum or the sounds of the rings of saturn, they allow us to aurally perceive the music of the spheres.

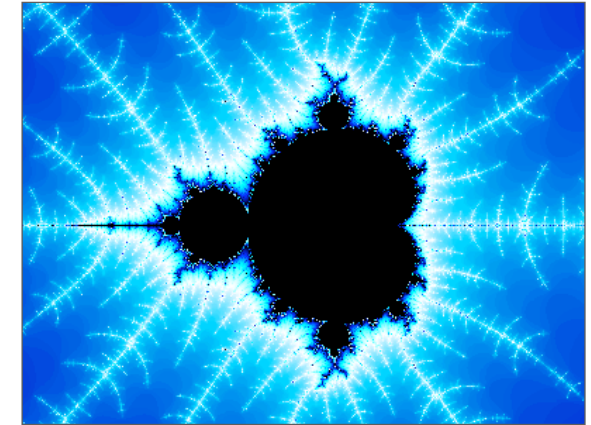

How these are tied to the celestial movements of pulsars, supernova, black-holes gives scientists and spiritual thinkers insights in the nature of the universe and its make up.

6th August:

“As Above, So Below”

(Macrocosmic and Microcosmic)

“As Above, So Below” this ancient hermetic law is now more relevant than ever in the 21st century where we are learning the music of the spheres is also encoded in the ancient pyramids of Giza, the pyramids of the Mayans and even within the crop fields of the UK.

Science is beginning to understand the macrocosmic “the larger universe” is connected to the microcosmic “that inner universe”

Fused with stunning visuals you will be transported through spheres within spheres.
